Scroll down and select to the folder labeled T-Max<sup>®</sup> Manager Touch<sup>™</sup> USB Drivers.

The following window will appear:

		$\times$
÷	Update Drivers - CP2102N USB to UART Bridge Controller	
	Browse for drivers on your computer	
	Search for drivers in this location:	
	C:\T-Max Manager Touch USB Drivers	
1	Include subfolders	
	→ Let me pick from a list of available drivers on my computer This list will show available drivers compatible with the device, and all drivers in the same category as the device.	
	Next Cance	el

Click next. After a short delay showing the drivers being installed, the following window will appear:

Click Close. Go back to the device manager and click the arrow to the left of Ports.

The port your T-Max<sup>®</sup> Manager Touch<sup>™</sup> will use will appear as Silicon Labs CP210x USB to UART Bridge (Com #). The # will be a number that the port is assigned to (this the screen above; COM 8).

Installation is complete. Configure your tanning software to communicate to the T-Max® that the Silicon Labs CP210x port is configured to.
